

Archtel  
Lighting Company

# COMPANY PROFILE

Hong Kong – Zhongshan, China

# WHO WE ARE

Archtel Lighting is a leading Lighting factory, with over 16 successful years in operation. We have grown steadily through a repeat business strategic model; building lasting relationships with renowned global and local organisations and their brands across the Middle East, America, Europe, Asia, Australia and the wider globe.

Our values remain; a deep understanding of the importance of people and relationships together with a focus on unparalleled and consistent customer service.

Archtel Lighting is highly experienced in the manufacture of decorative and commercial contract lighting for both high volume production and one-off bespoke commissions. Having been at the forefront of lighting production Archtel is able to blend lean and practical manufacturing techniques with creative flare and aesthetic design know-how to come up with eye catching, high quality products at competitive prices for the global contract market.

“People choose to work with us because we are not afraid to bring our own views and ideas to the table. Lighting is our speciality and we know what works well.”

# WHAT WE DO

We manufacture quality Decorative and Commercial Lighting for the International Hospitality and Commercial contract market.

Customers are always at the very heart of Archtel. We operate strict project control to ensure every project is delivered on time and is of the highest quality. Our key stage assessments with clients during the project ensure an accurate interpretation of what the customer is striving to achieve.

Our In-house manufacturing facility facilitates a flawless transition from design to production. You will be assured of quality products made from quality materials, on-time deliveries and an immediate response to any changes that are required.

The choice of Lumière is crucial to any design decision. Our technical team can assist in proposing appropriate lighting solutions taking into consideration all aspects of the project -ambiance, special effects, the right level of light and energy costs.

We have exported to more than 20 countries across five continents. Our team has a clear understanding of the different aesthetics, standards and regulations demanded for lighting in different countries.

All production is based out of Zhongshan China, where our main goal is to provide our customers with the best value without compromising on quality.

Our project team co-ordinates production and delivery ensuring the most efficient and cost-effective service. Whatever your location, with the dedication and experience of Archtel's export team, you are assured high quality products and on time deliveries.

We continue to invest in our design and manufacturing facilities ensuring that we not only meet the demands of today's market but also set trends for the future.

We constantly strive to offer products that provide optimal value for money and do not compromise performance on aesthetics and vice versa thereby proudly upholding our well-earned reputation as a quality lighting manufacturer.

# MANUFACTURING

At our production facilities in China, quality management is paramount to our success, so whether it be basic metal work, stainless steel and aluminum, casting brass, plating and painting, turning wood, mouth blown glass or modeling ceramic moulds, Archtel's focus is always on creating the best possible product for our customers.

We have 130,000 sq ft factory in Zhonghan, China.
